## SENATE WILL NOT PAY SALARIES

Oklahoma City, Ok., April 11.—Ben W. Riley of El Reno was today re-appointed secretary of the State Election Board by Gov. Cruce, to serve until February, 1917. The governor also reappointed Judge Charles C. Penn (Dem.) of Weatherford as chairman of the board and Ex-Gov. T. B. Ferguson editor of the Watonga Republican, as the Republican member, both to serve four years from last February.

At the Senate's special session last December the appointments of Penn and Ferguson to the previous term were confirmed, but the nomination of Riley as member of the board was rejected by a heavy vote. Then it developed, according to the governor, that these appointments did not have to be confirmed by the senate.

"They do not have to be confirmed, therefore the senate will not be given chance to review my action."

Following the rejection of Riley's name by the senate, the secretary continued at his post. The senate adopted a resolution reciting the fact that Riley was still on the job, notwithstanding "his removal" by vote of the senate, and directed the Sergeant at Arms to bring the secretary to the bar of the senate.

"I am continuing in the office at the governor's direction," was the only explanation made by Riley to the senate, and there the matter rested until today. It was understood among a few who had the governor's confidence that Riley would be renominated as the occasion became propitious and when the information reached members of the senate who had been active for rejection it was plain they were not pleased. One Senator, who has always defended the governor, declared that he "admired him for his nerve."

It developed tonight that the senate in caucus a few days ago voted that no appropriation would be made to pay Riley a salary as member of the State Election Board. This is to be specifically provided in the appropriation bill, and the same is in store for Lon M. Frame of Ardmore as member of the State Board of Affairs, and R. W. Dick, warden of the McAlester penitentiary. In the case of Frame, the Senate holds that he was not confirmed and a report adopted by the senate asked the governor to remove Dick from the state's service.

## Chicago to New Orleans by Boat.

Chicago, Ill., April 12.—After years of discussion and agitation the "Lakes to the Gulf" project, aiming at the restoration of freight traffic by water between the great lakes and the Gulf of Mexico, is about to become an accomplished fact. The Chicago and New Orleans Transportation Company has been organized to maintain a regular boat service between Chicago and New Orleans, and tomorrow the service is to be inaugurated with the sailing of the steamer E. S. Conway from La Salle, Ill., bound for the Crescent City. The route will be by way of the Chicago Drainage Canal and the Illinois and Michigan Canal and down the Illinois River to the Mississippi. The steamer Conway will carry about 800 tons of freight on its initial trip and more than 100 prominent Chicagoans who are interested in the deep waterway movement. Officers of the new company believe that one result of their enterprise will be to make railway rates lower.

wife. Monday is expected to witness the inauguration of a general strike in Belgium as a result of the order recently issued by the Labor Party of that country. The chief issue at stake is the demand of the working classes for the adoption of universal suffrage and the abolition of the present system of plural voting.

Tuesday will be the first anniversary of the sinking of the steamship Titanic, by which 1,500 persons, including many men and women of world-wide prominence, lost their lives. The anniversary will be observed with memorial exercises in London, New York and other cities.

The first formal dinner by the President and Mrs. Wilson will be given at the White House Wednesday evening in honor of the members of the Cabinet.

A special election will be held Tuesday in the Thirteenth congressional district of Massachusetts to choose a successor to John W. Weeks who resigned his seat in the house to accept election to the senate. Interest in the contest has been increased by the fact that tariff revision has been made the leading issue. Candidates have been named by the Democratic, republican and progressive parties.

Special elections are to be held Tuesday in Jersey City, Hoboken and several other cities of New Jersey to decide the question of adopting the commission form of municipal government. If Jersey City adopts the plan it will be the largest municipality in the East to do so.

### EASTERN STAR WILL BUILD CHAPEL AT HOME

McAlester, Ok., April 12.—The fifth annual session of the grand chapter of the Order of Eastern Star came to a close at about 10 o'clock Thursday night. Many of the delegates left during the afternoon, following the election of officers, and the bulk of the delegates got away on the night trains. But some remained until this morning.

The grand chapter voted to increase the appropriation for a chapel at the Masonic home at Darlington from \$6,000 to \$10,000. The plans and specifications submitted by Architect L. H. Bailey of Oklahoma City were adopted.

It will be California mission style and will be a great addition to the home plant at Darlington.

A special per capita tax of 50 cents per member, for one year only, was levied for this and other home purposes.

The suggestion of the grand matron that in cities where there are more than one chapter all be given concurrent jurisdiction was adopted by the grand chapter.

### Tariff the Issue.

Boston, Mass., April 12.—Politicians of all parties are keenly interested in the special election to be held in the Thirtieth congressional district next Tuesday to choose a successor to John W. Weeks, who resigned his seat in the house to accept the United States Senatorship. The election is regarded as important because it is the first to occur in any part of the country since Mr. Wilson became president. Furthermore, the contest among the candidates has been made on the tariff issue and the result is expected to show the attitude of Massachusetts toward tariff revision. The contest is a three-cornered one, the candidates being former Congressman John J. Mitchell, democrat; Alfred W. Cutting, republican and Norman H. White, progressive.

### Poincare to Meet Old Classmates.

Paris, April 12.—President Poincare has gone to Bar-le-Duc, in Lorraine, where a reunion is to be held tomorrow by the alumni of the old school which the president attended in early youth. The reunion will be of rather an original nature and will be confined to the survivors of the class of 1876, of which M. Poincare was a member. The survivors will meet in the old school, each in his original place in the class, and re-enact for an hour the scene of thirty-seven years ago. Exercises written in 1876 will be read again, and the masters will comment on them one by one, as of old. At the conclusion of the reunion a tablet will be placed on the wall of the school to commemorate the gathering.

## DIVORCE IN DECLINE

Los Angeles Plan Lowers Records in Court 50 Per Cent.

Homes Are Not Broken Up and City Enforces Payments of Alimony, and Soon Husbands and Wives Make Up.

Los Angeles, Cal.—That 50 per cent of the cases of trouble between man and wife, which formerly would have ended in divorce and the breaking up of a home, now end in reconciliation under the system of "divorceless" alimony, is the statement of Hugh C. Gibson, chief probation officer; and that a much larger percentage could be saved from divorce if a larger staff and more means were obtainable is the opinion he advances as a result of trying this system for two years.

The "divorceless" alimony consists in the payment of alimony without divorce proceedings, and has been in effect since January 1, 1911, when it became a law that failure to provide for a wife and children was a felony. Before that time the only way a woman had on this ground was divorce. Now she may apply to the courts or the probation department, if there are children, on the ground of felony—and "hubby" must pay up, the alternative being the rock pile.

And if he goes on the rock pile at \$1.50 a day—more than the average man makes, according to Gibson—the court collects the entire amount and pays it to his wife and children.

"I believe fully half our cases are saved from divorce now," said Mr. Gibson. "In a year we must average 500 cases where there is failure to provide; we easily save 250 out of that number from divorce. Unless the trouble is very real and hard a man's heart is apt to soften toward his wife and babies within a few months, and in five per cent of the cases, within sixty or ninety days he makes overtures of peace and effects a reconciliation. Of course we continue to keep supervision over the families—particularly if there are children. And sometimes the peace business doesn't go, and they are back on our hands; but usually it sticks. Instead of a divorce a ruined home and children without a father, there is a happy home with everything as it should be."

"In the last year we have handled approximately \$15,000 in this divorceless alimony money. We cannot take more than sixty per cent of a man's earnings, and we have no set ratio. The amount is fixed in accordance not only with what he makes but with his wife's condition, the number of children, and other matters affecting their needs."

"Could we handle other specific divorce charges, such as drunkenness or 'affinities,' and save fifty per cent? I don't know about the fifty per cent, because we haven't experimented, but we certainly could prevent many cases of divorce—many cases."

### ODD FACTS ABOUT HEREDITY

Color-Blindness Descends from Male to Female, or Vice Versa, Declares London Professor.

London.—Lecturing at the Royal Institute on "Heredity of Sex," Prof. Bateson relates some curious facts which have been discovered as a result of examining several generations of a family in which color-blindness appeared.  
A color-blind woman, he said, is very rarely found and she always is a daughter of a color-blind man. Her sons and daughters would be normal, but if her daughter had sons, they would be found to be normal and color-blind in equal numbers.

A curious anomaly with reference to color-blindness appeared in twins. They were girls, exactly alike in appearance, but one was color-blind and the other was not. No explanation of this exception had been found. Prof. Bateson said there is a popular belief that sons in certain respects took after mothers and daughters after fathers. Within a reasonable range of speculation this is true, he said.

### MORMON SHAFT FOR SEAGULL

Brigham Young's Scion Plans Memorial to Sacred Bird of Sect—Exterminated Grasshoppers.

New York.—It is learned that Mahorri Young, a grandson of Brigham Young, leader of the Mormon church, is at work in this city modeling a unique monument to the seagull. This bird is sacred to the Mormons because it saved the first immigrants to Utah from a plague of grasshoppers. It is said that the monument, which will be carved, will cost \$40,000. It will be placed in the grounds of the Mormon temple at Salt Lake City. With such a costly monument the seagull apparently has a greater tribute of this kind paid it than any other bird.

At the base of the monument one side is to be devoted to an inscription and the remaining three will have low relief sculptures depicting the arrival of the Mormons in Utah, the saving of their first crop by the seagull, and the first harvest.

### MEXICANS KILL TWO AMERICAN SAILORS

Guaymas, Sonora, Mex., April 11.—The killing here of J. C. Klesow and W. W. Corrie and the wounding of three other sailors from the United States cruiser California resulted today in a request from Americans at Mazatlan that a cruiser be detailed to the Pacific port. Anti-American feeling is said to prevail at other points down the west coast. This feeling is said to have occasioned the fight between American sailors and police here.

An official consular report from an eye-witness of the fight of Wednesday morning says the Americans were intoxicated. The men are said to have been shot by the chief of police. For some time irritation on the part of Mexicans had been evident admittedly caused by the presence in Mexican waters of American ships of war.

All sailors permitted to go on shore leave had been given strict orders maintain friendly relations.

The Saturday crowd in town this afternoon was larger than for some time past. The streets were almost impassable from vehicles.

Otis Weaver is reported better today and everything looking more hopeful for his speedy recovery.

Mr. and Mrs. L. L. Brooks of Roff, are visiting their daughter, Mrs. T. F. Pierce.

A. H. Lewis, who was the guest of Dr. Cummings, returned to Coalgate this morning.

W. H. Rayburn and J. B. Cummings were looking after business matters around Ahloso today.

W. B. and H. B. Johnson returned this morning from a business trip to Texas.

Dr. A. E. Davenport of Oklahoma City was in the city on business matters today.

A. B. Yeager and family left this morning for Dallas, where they may remain for several days. Mr. Yeager has not been in good health for sometime past and may take a course of treatment at Dallas or Mineral Wells before returning home.

From conversations with several farmers this afternoon the News is inclined to think that the frost of Friday night did no material damage.

The deferred semi-annual meeting of the stockholders and directors of the News Printing and Publishing Co., was held this morning. The same directors and officers were elected for the ensuing six months.

The Sacred Heart baseball team came down this morning to play the Normal. The game is being played this afternoon on the Normal diamond.

J. W. Whipple was in from Center this afternoon. He said that he had not noticed any damage done by the frost of Friday night.

Prof. T. B. Limer was over from Konawa this afternoon. Prof. Limer has been re-elected as superintendent of the Konawa schools, a deserved compliment to his ability as an organizer and manager of the schools of the district.

P. A. Norris, who was painfully injured two or three nights ago by falling down a flight of stairs at his home is reported doing very well. However, it will probably be another week before he is able to be out again.

All who have read United States history are familiar with the story of how wives were brought over from the old country for the discontented colonists of Jamestown. This evening the Majestic will present a two reel picture of this historical event. The picture was made partly in Ireland and partly in Virginia where the interesting event took place. Not only is it a historic gem but it is rich as a story.

Let the News WANT COLUMN be your agent. Results are sure.

The De Sota offers its patrons two excellent pictures this evening. The first is "A Cadet's Honor," in which a cadet at a military school is put to a severe test. The second deals with two men, one of whom out of revenge for a wrong the other one did him, slips some limburger cheese into his shoes just as he is leaving for a party. The complications which follow make up a comedy that is nothing short of a scream.

## HOW ONE WOMAN WON

Her Health and Strength Back Again by The Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and, from the first day, it seemed to help."

I had almost lost my reason, but, thanks to Cardui, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it."

Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health.

It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical. Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardui.

The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways. Try it.

### From Foundry to Pulpit

New York, April 12.—The Rev. Dr. William H. Morgan, until recently pastor of the Central Methodist Episcopal church in Newark, will tomorrow preach his first sermon as pastor of Calvary Methodist Episcopal church in this city, which is the largest Methodist congregation under one roof in the world. Dr. Morgan has one of the most striking records of any man in an American pulpit. From a puddler in an iron mill for eleven years he has risen to the position of pastor of one of the leading Methodist churches in the United States. Up to the age of 23 Dr. Morgan could not read or write.

**THE SMALL-TOWN MERCHANT AND ADVERTISING**

(Copyright Texas Farm & Ranch.)

Until recently the average merchant in the towns and smaller cities has thought that money spent in advertising was an investment of doubtful profit. Everybody in the community territory from which his trade must come already knew he was in business, knew what sort of goods he sold and on what terms. If he did any advertising at all it was a kind of general announcement in the spring and again in the fall, that he was still "doing the same kind of business at the same old stand."

But a few progressive spirits in very recent years have come alive to the fact that the small-town merchant can use advertising space to advantage. In fact, many of them are doing it, and their number is increasing. I know of one dry-goods firm in a town of 4,000 people that plans each year to spend from \$1,000 to \$1,200 in advertising—a sum equal, if not greater than, the salary of any one of their salesmen. Their manager

considers his advertising space his most efficient salesman, and his advertisements each week are prepared with rare care and judgment.

For \$20 or \$25 a month any merchant in a small town can use half a page in his local paper, or a quarter-page in proportion, and change his advertisement each week. He can thus, with no great expense, send in to a thousand homes in his trade territory each week a convincing, business-pulling message, for there is hardly a town in the Southwest of 2,000 population but has at least one paper of 1,000 or more circulation. There is no other means by which he can get such a message into those homes for as little cost. And fifty-two such messages, conscientiously prepared and conscientiously lived up to, cannot fail to pay for themselves over and over during the year in added profits.

**"FAGGED-OUT" WOMEN**

**Will Find a Helpful Suggestion in This Letter.**

Overworked, run down "fagged out" women who feel as though they could hardly drag about, should profit by Miss Richter's experience. She says: "Last winter I was completely run down and felt fagged out all the time, was nervous and had indigestion.

"One of my friends advised me to take Vinol and it has done me great good. The tired, worn-out feeling is all gone and I am strong, vigorous and well. The stomach trouble soon disappeared and now I eat heartily and have perfect digestion. I wish every tired, weak, nervous woman could have Vinol, for I never spent any money in my life that did me so much good as that I spent for Vinol." Marie Richter, Detroit, Mich.

Thousands of women and men who were formerly weak and sickly owe their present rugged health to the wonderful strength-creating effects of Vinol. We guarantee Vinol to build you up and make you strong. If it does not we give back your money. Gwin & Mays Drug Co.

**FADS AND FASHIONS**

New York, April 12.—The recent spring openings have established the fact that no very revolutionary changes in fashions are to be expected during the spring and early summer season. The most conspicuous variations from the fashions of last spring are the small hats, the short coats, and the new fabrics. Small hats had to come because of the flatter coiffures. Later in the season they will probably increase in size, but the crowns will still be smaller than have been seen in the big shapes for some time. Hats are a far less complex department of fashion, however, than the costume is. One could name almost every feature of a gown and give absolutely contradictory testimony as to the way it is being treated this season by the creators of the modes.

For instance, coats are anywhere from waist length boleros to thirty-inch cutaways and Russian blouses. Sleeves are half length, three-quarter length, or may be even more than the normal full length. In evening gowns they are only a wisp of mousseline or lace at the shoulders. Waist lines are variously described as normal, high in front, or high in the back. Skirts may be slashed or not.

Never has the blouse, the semi-tailored waist and the shirt been in such demand. For the past two years the separate waist has been more or less eclipsed by the one-piece frock, but it blossoms forth now with renewed vigor. Not a luxury, but a necessity, it is multi-colored and in styles without number.

Almost all of the new waists show touches of vivid colors. Both simple and elaborate waists of series, Nell rose, French-blue and black are combined with white and vice versa, showing a marked contrast from the waists of other years when white alone predominated. The dull tones used in cretonnes and tapestries and Dresden shades are often introduced for collars and cuffs. Turquoise blue, lavender and pink are seen on frills and pipings.

The materials employed in the making of these waists are varied. Crepe materials showing embroidery, stripes and bars may be either of light or heavy texture. Plain and embroidered voiles, crepe de Chine, crepe meteor, China and tub silks are used also linens, lawns and batiste. In the elaborate waists for afternoon wear all-over lace has been replaced by colored chiffon clothes, or charmeuse, matching the shade of the suit.

The double ruffle which has appeared on many of the waists of the winter, falling from under the Robespierre collar, is still in favor, and buttons of imitation pearl, crystal and jewels inset to match the color tone of the blouse are popular trimmings.

Collars are a distinctive feature of all the new waists. Eyelet embroidery collars also are new and few high collars are used. The neck line of waists for both street and house wear are semi low. Collars may be square rolled, pointed or Robespierre but all blouses have some form of collar. The sunshine collar is new. Its form is a narrow sailor, tapering into a V in front.

The simple morning waists of soft material and tailored blouses are nothing more than shirts, which form of waist is indispensable for outing wear. Tailored in the most mannish fashions, they show the soft collar and cuff, the yokes in the back and small pocket on the left side of the straight front plait. Tub silk is very good in this type of waist and broad stripes of color are much used. Crepe de Chine is also made up into this feminine negligee shirt.

The Tuxedo is a new form of the tailored shirt waist. Fashioned exactly like the shirt, worn for the masculine dinner jacket, it has a vest of finest tucks outlined with hem-stitching and carry a tight turn-back cuff. The collar is upstanding and is encircled at the base by a narrow band of black taffeta ribbon, which is finished in the front by a bow tie resembling that used on a

**The Return of Blood Eruptions**

No Reason Why Anyone Should Suffer With Such a Disheartening Experience.

No case of contagious blood poison is ever cured until the last particle of the virus has been removed from the circulation. The least taint left in the blood will, sooner or later, cause a fresh outbreak of the trouble, with all its hideous and destructive symptoms of ulcerated mouth, and throat, copper colored spots, falling hair, sores and ulcers, etc. No other medicine so surely cures contagious blood poison as S. S. S. It goes down into the blood and steadily and surely drives out every particle of the infection. It absolutely and perfectly purifies the blood, and leaves this vital fluid as fresh, rich and healthy as it was before the destructive virus of contagious blood poison entered the circulation. S. S. S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and other blemishes, the hair stops coming out, the mouth and throat heal and when S. S. S. has cleansed the system of the poison, no trace of the disease is left. S. S. S. cures contagious blood poison because it is the greatest of all blood purifiers, tested and proven in hundreds and hundreds of cases all over the country.

You will find S. S. S. for sale in all drug stores at \$1.00 per bottle. Write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga., for private medical advice and a very instructive book on all blood diseases, sent free, sealed in plain wrapper.

man's dress shirt.

On many of the white voile waists the collars, cuffs and popular small vests are of striped voile in some contrasting shade. For young girls is the voile waist, trimmed only with footings, which edges the sailor collar and front double ruffle, which is graduated without plaits, but quite full in effect. Tiny crochet buttons trim the waist. A model of lawn had Bulgarian embroidery about the rounded neck and extending down the left side. A white crepon waist, embroidered in tiny rosebuds of pink with grass green stems, had green ball buttons dotted down the center front. On this waist the long French shoulder seam was used.

Exceedingly smart was a waist of white tub silk embroidered both back and front in a conventional design of king's blue. The long sleeves had tailored cuffs and the rolled collar was finished with a tie with long ends. The blue buttons of the same shade were placed down the front in a double row. Eponge in the cretonne coloring trims some of the tub silk waists. For wear with the street suit the crepe de Chine is excellent and in many instances this has a vest of air-line cloth, a material like chiffon in appearance, but washable.

Fillet lace trims the expensive lingerie waists. A model seen of ecru batiste had a front plait of Grecian embroidery and the embroidery collar edged with pointed fillet. White wax buttons were used for fastenings.

O nan imported model for dressy wear was seen the new corset cover effect. The body of the waist was of ecru net on a foundation of white chiffon. To this chiffon lining bands of old blue ribbon are attached, encircling the waist line and placed across the shoulders in inch-wide shoulder bands. On one side was caught a bow centred with artificial flowers in purple and cerise shades. A flat Robespierre collar of white charmeuse and square jabot of fine shadow lace finished the neck.

The square, flat jabot is excellent style for this variety of waist. Most of these waists blouse over the belt. The simulated bolero is also seen in chiffon waists. When ribbon is used in this form of trimming it is veiled; occasionally, however, the bow is uncovered.

A new decoration in cotton material is the use of the Irish lace stitch. With its open meshes and coarse irregularity it is charming if applied to thin materials. It is presented in borders woven on the material itself and in bands to be applied as trimmings. An attractive novelty in this beautiful lace stitch is stamped with colors, and, as much of the color falls through the open meshes, the result is pleasantly irregular and vague.

Colbert embroidery has been revived. The openness of the designs, which are cut out, with the edges buttonholed, made it particularly pretty made up over a vivid color.

**My Dream Mother.**  
(By an Ada Girl.)

In youth I lost my mother.  
But I know there is no other  
Could take her place on the throne  
Of grace.

In my heart of hearts, Oh, Mother.

Sometimes she comes, a vision,  
A dream that seems so true,  
Her eyes a mist by the moonbeams  
Kissed,  
My beautiful dream mother.

She kissed my eyes, my brow and  
hair  
No vision seemed more lovely, fair.  
O give, O give, me a mother's love,  
My beautiful dream mother.

I now am grown two babes more  
fair,  
Have graced my happy home,  
But still my memory backward clings  
To my beautiful dream mother.

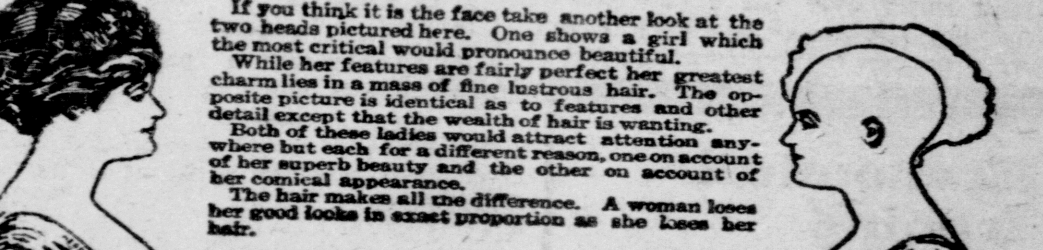

And oft as twilight softly steals  
The radiance from the parting sun,  
She comes to me at eventide,  
My beautiful dream mother.

**Is it the Hair or the Face that makes the Woman?**

**Newbro's Herpicide Saves the Hair**

There is nothing which is so destructive to the hair as dandruff. This annoying trouble to which everyone is more or less exposed is due to the working of an invisible growth of microbe called the Dandruff Germ. It robs the hair of the soap and luster of health, burrows down into the follicle and eventually loosens the hair, allowing it to fall out.

Newbro's Herpicide applied regularly and intelligently kills this germ, keeps the scalp clean and hair healthy.

Falling hair is thus prevented and, if the hair follicles have not become atrophied, a new growth of hair may be anticipated.

The life and luster of Herpicide hair is beautiful to see, is unmistakable. An abundance of fluffy, glittering hair is woman's chiefest beauty and to permit its needless destruction is unpardonable.

**It Makes All the Difference In the World**

That's what you say when you tell your friends about your shopping expeditions. It may be the principals of the store, the service it offers or the quality of the goods it sells that you are discussing. But the difference to you means your satisfaction or disappointment.

You will find when you deal with the merchants who advertise in the NEWS that the difference stands always for satisfaction. Each store values its reputation too much to risk disappointing you. Each wants your good will. So they direct every effort to serve you best and give you the best values.
